EDUCATION

- **Bachelor's in Information Systems - Federal University of Rio Grande -** 2016 - 2022

EXPERIENCE

- **Mid-level Flutter Mobile Developer (Freelancer) - AutoMais - 2024**
  Responsible for the development and optimization of the app, carrying out significant refactorings to improve performance and user experience. Direct collaboration with backend teams for RESTful API integration, ensuring efficient data exchange between the user interface and the system.
  ● Development of OCR and integration with NFC and QR Code reader.
  ● Ensuring app performance and maintenance for a continuous user experience.

- **Mid-level Flutter Mobile Developer - MaisChat - 2023 - 2024**
  Complete development of the [MaisChat](#) customer service app, used by pharmacy networks and cooperatives throughout Brazil. Project built in Flutter, following modern architectural standards, offering a robust and intuitive experience for users.

  - Modular project structure;
  - State management with MobX;
  - Integration of RESTful APIs for communication with backend servers;
  - Implementation of websocket functionalities for real-time messaging;
  - Use of Firebase for push notifications;
  - Unit testing;
  - Version control with Git;
  - Publishing of apps on Play Store and App Store;
  - Collaboration with designers and product managers to ensure the delivery of high-quality products

- **Professional Instructor III - SENAI - 2022 - 2023**
  Instructor of the Technical Course in Systems Development, organizing and teaching content on OOP and mobile development, training students in industry best practices.

- **Project Analyst - Korporate - 2020 - 2022**
  Responsible for the analysis and management of new projects, implementing internal workflows in Notion and supporting the development team.

- **Junior Developer and Project Director - Byte Jr. - 2021 - 2022**
  Led team interactions, effectively managed knowledge, and diligently implemented agile methodologies. Additionally contributed as a developer. Byte Jr. aims to professionalize its collaborators through high-quality information technology projects at a cost below market rates, giving back to society.

- **Junior Mobile Developer - Hilltech - 2019 - 2021**
  Development of a sustainable practices app in partnership with [Hackathon C3HACK](#), using Firebase for real-time tracking via GPS.
